UT131C Palm Size Multimeter

The new generation UT131 series redefines the performance standards for entry-level digital multimeters. Our innovative industrial design ensures that these products can withstand 2 meters drop. The new LCD display layout provides a better user experience. This series ensures that users can work safely in CAT II 250V environment. Special features are, 2mF capacitance test (UT131A); battery test (UT131B); temperature measurement function (UT131C); non-contact voltage (NCV) test (UT131D).

Main features

1. Clear LCD display
2. Equipped with comfortable protective cover, test probe holder
3. 2 meters drop test, precision protection
4. Auto power off

5. Auto backlight off
6. Loud buzzer sound
7. Knobs shift smoothly, in line with ergonomics
